Get hands-on learning experience while helping to bring history alive for various age groups at the Manitowoc County Historical Society. The Society plans an ambitious offering of programs and services during the summer months at our two sites the Heritage Center and Pinecrest Historical Village. During our busy summer season, we offer large scale events such as our Buffalo Bill Wild West Show and Founder’s Day and also have a strong and successful summer camp schedule and pre-school activities.

Our interns will help plan and coordinate summer events and educational programming for various age groups but mostly youth ages 5 to 13. Candidates should be comfortable working with the public for tours and education programs. The intern will be supervised by the Executive Director of the Society. Additional requirements include reliable transportation and the ability to walk moderate distances to conduct tours. Preferred areas of study include museum studies, public relations, marketing or advertising, history, and education.
